

Media Play News offers clients the chance to deliver their custom message directly to consumers through our sponsored content offerings. Also known as advertorials or native advertising, these articles are written by our editors but approved by you.

Sponsored content gets your product or company in front of people in places that they're already looking – with two-week news feed placement on the home page of our website, placement in the daily newsletter, and placement in the editorial section of our digital and print versions of the magazine. Because it holds useful information and feels appropriate for the context, it's a persuasive way to tell people more about what you do – or what you have to sell.
